

# ELECTION AFTERMATH, A PRODUCTIVE WAY FORWARD

**Save the date!**

**Saturday, April 15th  
10:00 – Noon**

---

[Drs Mike and Trish Zimburean](#) and [Genét Simone, PhD](#) are pleased to announce a leading edge presentation and discussion at the [Zimburean Center](#) for people who:

- *Are frightened or concerned about the chaos and ineffectiveness of our current systems: political and cultural (a prime example being the process and results of the recent US presidential election)*
- *Believe our culture and society are actually regressing or devolving*
- *Have the courage to experience the discomfort of learning to truly understand those whose views, values, and priorities are different from their own*

Are you ready to take meaningful steps to build the culture and systems that truly work for all members of our society and our world?

This discussion is for people who are willing to dig deep and explore a truth that has not yet been fully realized.

Our vision is inspired in part by the concepts and suggestions offered by Ken Wilber, a brilliant integral philosopher and luminary in his ebook "[Trump and a Post Truth World.](#)"

**Suggested donation \$20 – RSVP by emailing: [mike@zimburean.com](mailto:mike@zimburean.com)**
